

# Accordance

**Accordance approached Office Profile to complete a workplace consultancy study to ensure they find a suitable new premises for future growth. Areas involved in the project including an open plan office space, offices, meeting rooms and a breakout kitchen area.**

Accordance, who offer international VAT consultancy and compliance services, had secured a floor in a building located in Brighton. The building was in construction stage when we were appointed by the client to perform the workplace consultancy. Within the brief, the client highlighted the need for ample storage and several collaboration points. They regularly conduct company briefings, and the client wanted to be able to host the events within the new office. The Workplace Consultancy included a space occupancy study, staff survey, focus workshops with department heads / key staff, and a space audit. From this, Office Profile built a report with recommendations over a number of areas including; a recommendation to relocate, what type of space they should look for, how much space they need and a Zoning Planning Strategy, along with a recommended IT Strategy. We supported Accordance throughout their search for space, through the design and planning process, and then the relocation.

- **LOCATION:** BRIGHTON, EAST SUSSEX
- **VALUE:** UNDISCLOSED
- **FLOOR AREA:** 7,062 SQ FT
- **DURATION:** 4 WEEKS
- **STAFF NO:** 100+
