ROCKETMILL REFERENCE LETTER

To whom it may concern;

I have recently worked with Office Profile on a complete office refurbishment that we commissioned at our new office space in Brighton.

There were strict elements to the brief that we gave office profile – needing a boardroom, training area, kitchen and breakout space along with other requirements. We wanted the office to feel youthful and vibrant – much of what the company is, while retaining a professional corporate feel.

We were keen to play a very active role in an interactive design phase with Office Profile. We dedicated time to be in with the Office Profile Design Team until we worked up something that we felt was acceptable and then it was just a case of refinement and refinement again until we were very happy with all that we had mapped out.

The project didn't encounter any major hurdles and it was just a case of attending site once a week and enjoying the space come to life – it really wasn't a stressful process to be a part of. The standard of customer service was outstanding and I was in constant contact with the Project Manager, Colin Dymond, who kept me up to date with what was happening on a day-to-day basis.

The finished project has enabled our smooth transition from our Crawley office to our new base in Brighton and have already received numerous positive comments from staff, visitors and clients.

I would have no hesitation in recommending Office Profile for anyone looking to carry out an office refurbishment or fit-out.
