Making your business space work harder

BIG BUS
TOURS

The office had an open plan layout to increase workflow and communication

Fitted StorageWalls were installed to provide a neat storage solution

Company branding was incorporated into the scheme with manifestation and feature walls

BIG BUS TOURS

Big Bus specialises in sightseeing tours on a global scale and needed new offices to match their new corporate re-brand. Big Bus Tours moved from an old building, where the workspace was divided up into separate rooms. A key request for the new space was an open plan layout to increase workflow and communication. Branding was incorporated into the scheme with manifestation and feature walls including a map on the glass panel behind the reception counter.

Office Profile carried out a Cat B fit-out for the existing client. This involved 2 floors of refurbishment works in the offices, meeting rooms, kitchenettes and reception area. Fitted storage installation included solid and glazed partitioning with beech doors, 2 teapoint areas and StorageWalls providing a neat storage solution. The main boardroom has a large conference table made up of tilt-top tables for easy configuration. Media and audio visual points in the room were provided for presentations and staff meetings.

- LOCATION: LONDON, SW1
- VALUE: £280,000
- FLOOR AREA: 600SQM
- DURATION: 6 WEEKS
- STAFF NO: 65

The bench desking system with cable management, CPU holders, monitor arms and comfortable seating allows for a smooth user experience. The new attractive and space-efficient environment has enabled the company to grow and expand successfully, resulting in further works to adapt the space around the expanding workforce.
