

Gamer Network

Gamer Network is one of the world’s leading gaming media businesses with offices located around the world. They needed more space due to their ever-expanding team, so they secured 2 extra floors in the building they were currently occupying.

Office Profile were approached to complete the CAT A and CAT B fit-out for the 3 floors and lobby area of the building. One of the new floors was left in a bad state from the previous occupier and had water leaking through the ceiling. There were various areas we were asked to refurbish including a large breakout room, washrooms, meeting rooms, offices, open plan office space, the lobby, collaboration areas and teapoints. Office Profile worked closely with Gamer Network from the initial stages through to completion.

We began the phased fit-out works by stripping out floors 1 and 2 installing new mechanical and electrical services along with full decoration and new floor finishes. Once the client had moved out of the 3rd floor and on to the 2nd floor, we were able to carry out the final phase. Full refurbishment of the 3rd floor, in line with the 2nd floor design, and works to the common areas.

- **LOCATION:** BRIGHTON, EAST SUSSEX
- **VALUE:** £560,000
- **FLOOR AREA:** 11,850 SQ FT
- **DURATION:** 21 WEEKS
- **STAFF NO:** 120

Breakout and gaming area, leading into the breakout and kitchen space and private meeting room

The breakout and kitchen space, with Feast Metal tables and benches and fitted grey gloss teapoint area and kitchen

Open plan office space, featuring sit stand desking with black operator chairs

The lobby area with mounted bicycle racks as many of the staff cycle to work

One of the studio rooms on the 2nd floor, where Gamer staff record videos and livestream

The washroom cubicle doors each displayed the name of a map from the popular video game 'Quake 2'
