

Office Profile

Making your business space work harder

AAR CORPORATION

Glass partitioning with the company logo and messages featuring within the manifestation.

President's office with smart white desk and ergonomic task chair.

AAR CORPORATION

AAR Corporation appointed Office Profile to fit-out their new office space in the exclusive Manor Royal Business District in Crawley, West Sussex - with a scenic view of Gatwick Airport!

Office Profile were commissioned to complete the fit-out for their new premises and needed to incorporate several different areas within the project: an open plan office space, individual offices, meeting rooms, a teapoint and breakout area, a reception, a comms room and an office for the President of AAR Corporation.

We built full-height glass partitions and doors with opaque manifestation using AAR Corporation's company branding. In the reception area, Office Profile constructed a stunning moss feature wall with an integrated TV fitted flush to the wall, to add the 'wow' factor for visitors and staff. We fitted chic blue Tom Dixon pendant lights above the reception desk and finished the area with a smart sofa in the company's corporate colour scheme.

Meeting room with a conference table and black meeting chairs with chrome armrests.

- LOCATION: CRAWLEY, WEST SUSSEX
- VALUE: £215,000
- FLOOR AREA: 5,000 SQ. FT
- DURATION: 6 WEEKS
- STAFF NO: 42

High Spin Stools and poseur tables in the breakout area.

Low locker wall for added security and storage for equipment.

Following the aviation theme, the Design Team created a 'runway' corridor, by a clever use of flooring in different shades of grey. The teapoint features fresh-looking white gloss units, a grey speckled worktop and modern geometric tiling.

Elegant high Spin Stools in a combination of grey and blue fabrics with poseur tables were supplied, along with Feast tables and benches in the breakout area.
